Minerva Group A/S to offer EDACConnect™ from Perception Software

Extension of Minerva's PLM Solution for High Tech

Perception Software announced today the appointment of Minerva Group as its primary reseller and services provider for Europe. Minerva will offer Perception's EDACConnect family of products as part of its Oracle/Agile PLM solution practice for high tech manufacturers. Established in 1995, Minerva offers consulting and advanced IT solutions for manufacturing businesses with a focus on organization development, ERP, PLM, CRM, flow production, and SCM. Minerva has offices in Denmark, Sweden and the UK.

Perception Software's EDACConnect product family provides a seamless integrating of electronic systems design tools from Cadence Design Systems, Mentor Graphics, Altium, and other EDA tool vendors with PLM systems such as Oracle/Agile. The EDACConnect family of products gives electronic engineers and designers relevant enterprise data during the product design cycle, enabling better engineering decisions and fewer re-designs. Using EDACConnect engineers spend more time designing and less time searching for data or performing administrative tasks.

About Minerva Group.

Founded in 1995, Minerva Group offers consulting and advanced IT solutions to manufacturing businesses. Our background includes long, in-depth experience within the manufacturing industry, and our success is built on a strong company culture with high customer satisfaction and loyalty.
